

We are dedicated to providing high-end CNC machining and CMM verification for the Aerospace and Defence sectors

THE AED CAPABILITIES INCLUDE:

- Utilisation of industry compatible CAD/CAM software, Unigraphics NX
- Specialist 5 axis simultaneous milling (two Deckel Maho 5 axis milling machines)
 - X Axis (3 Axis fixed) = 980mm
 - X Axis (5 Axis fixed) = 880mm
 - Y Axis = 630mm
 - Z Axis = 630mm
 - Our milling machines are fitted with laser tool measurement capabilities to ensure machining accuracy
- CMM verification and measurement facilities (Brown & Sharpe Global Performance Coordinate Measurement Machine)
 - X Axis = 700mm
 - Y Axis = 1000mm
 - Z Axis = 660mm
- Temperature controlled facilities
- AED has been audited and approved by BAE Systems and Aeronautical Engineers Australia a preferred supplier
